PROJECTS

- HooBank - Modern Business Landing Page** | *React.js, Tailwind CSS* December 2023
- Developed a full responsive Website with modern UI/UX
 - Used high quality images and gradients, reusable buttons, Testimonials,
 - Made Media Queries, soft animations, and other sections such as Header and Footer.
- Recipe Shopping-list Web Application** | *Angular, HTML/CSS, Typescript* November 2023
- Developed multiple nested components which communicate with each other.
 - Used directives, services, routing, Angular forms, etc
 - Here in recipe section, a user could select any recipe and then add the ingredients to the shopping-list component and also manage all the components data.
- Travel.Website** | *React, Javascript* October 2023
- Developed a Landing page of a travel site where in background a video is played and then there are several more components.
 - Used Props and a lot of Tailwind CSS and implemented a sidebar a basic form.
