TECHNICAL SKILLS

Languages: C++, JavaScript, HTML, Tailwind CSS

Frameworks: React.js, Node.js, Express.js

Database: MongoDB, MySQL

Developer Tools/Platforms: Git, GitHub, VS Code, Postman

Familiar with: Object Oriented Programming, Docker, Java, SDLC

PROJECTS

MediumLike | *React.js, Tailwind CSS, Node.js, Hono, Postgres, Prisma* May 2024

- Developed a secure full-stack web application in TypeScript, utilizing PostgreSQL, Prisma, Hono, Cloudflare Workers, React.js, and Tailwind CSS; implemented JWT token-based authentication for user access.
- Enabled users to view and publish blogs with a creative editor, and minimized code repetition by publishing an npm package for shared frontend and backend code.

URL Shortener | *React.js, Tailwind CSS, Node.js, Express.js, MongoDB* February 2024

- Developed a secure authentication system, enabling users to sign up or log in to access the dashboard, ensuring seamless and controlled access to the platform.
- Designed an intuitive dashboard interface showcasing users' previous shortened URLs alongside their corresponding long URLs, providing users with a comprehensive view of their activity.
- Implemented tracking of URL click counts and dynamic deletion functionality, empowering users to manage their shortened URLs efficiently while ensuring instantaneous updates on both frontend and backend systems.

Basic Paytm | *React.js, Tailwind CSS, Node.js, Express.js, MongoDB* January 2024

- Utilized Agile methodologies to spearhead the development of an authorization-enabled Paytm project, ensuring seamless user authentication and security.
- Created an authorization-enabled Paytm project. Upon user registration, assigned a random amount between 1000 to 10000.
- Implemented a user-friendly dashboard with advanced features, allowing users to efficiently search, select, and initiate fund transfers to other users.
- Integrated key libraries including Zod, Axios, Bcrypt, Mongoose, and JWT for enhanced functionality. Developed efficient routing to streamline navigation within the application.

Portfolio site | *Next.js, Tailwind CSS, Framer Motion* January 2024

- Created an impressive personal portfolio website using Next.js, Tailwind CSS, and Framer Motion. Implemented advanced section tracking to enhance user engagement.
- Integrated Resend(email API) for seamless email functionality. Ensured the website achieves 100 percent responsiveness.
- Engineered an aesthetically pleasing interface with dynamic light/dark mode toggling, showcasing a dedicated commitment to user-centric design principles and accessibility.

EXPERIENCE

Analyst April. 2024
Capgemini Gurugram, India

- Learning and going through the training modules for troubleshooting of a Webex.

EDUCATION

Krishna Institute of Engineering and Technology Ghaziabad, Uttar Pradesh
Bachelors in Technology in Electronics and Communication Aug. 2019 - June 2023

Fertilizer Public School Shahjahanpur, Uttar Pradesh
High School - Intermediate 2016 - 2019
